The bottle is complete, except for a chip on the inner rim. It is cylindrical in shape, with a straight wall, a rounded shoulder and a long cylindrical neck tapering to the top. The neck has a straight ring and a high, slightly tapered lip with a flat top. The base is straight. The base has a domed fulcrum, a conically sunken center with an annular plateau. There is a sand pontil mark on the bottom. There are three mold marks: a horizontal mold line at the top of the wall and two vertical mold lines on the shoulder and neck; None...
