The bottle is complete, except for cracks in one place on the shoulder. It is cylindrical in shape, with a straight wall, a rounded shoulder and a long, tapering cylindrical neck with slightly twisted vertical grooves at the top. The neck has a flared ring and a high, swollen lip with a flat top. The base

is straight. There is a glass burr under the ring. The base features a domed fulcrum, a sunken cone-shaped center with an annular plateau. There is a sand pumice mark on the base. There are three mold marks: a horizontal mold line at the top of the wall and two vertical mold lines on the shoulder and neck; None...
