The bottle is complete. It is cylindrical in shape. In cross-section, it has a tapered wall at the sock, a rounded shoulder and a high, tapered neck at the top, ending in a neck with a double-beveled annular ring rounded in cross-section, below a straight lip with an uneven, fire-polished top. The base is rounded and the bottom has a domed fulcrum; the center is sunken into a cone, and shows a trace of blowpipe pontil. The surface of the bottle is finely cracked, a phenomenon caused by the degradation of the glass ; None, other than the shape of the object.

Accession Number 2018.10.801

Date 1790 c

Materials dark green colored glass from France

Measurements 28,7 x 9,2 cm
