The bottle is complete, except for a chip on the neck. It is cylindrical in shape. In cross-section, it has a tapered wall towards the neck, a rounded shoulder and a high, tapered neck towards the top, ending in a neck with a swollen, uneven annular ring, below a straight lip with an uneven, fire-polished top. The base is rounded and the bottom has a domed fulcrum; the center is sunken into a cone, and it shows a trace of blowpipe pontil ; None, other than the shape of the object.
