The glass is complete, except for a small chip on the rim of the foot. It comprises a bowl, a stem and a foot. The bowl is tall, with a straight rim and a straight wall curving towards the stem. The stem is solid and cylindrical, widening at the base. The foot is circular, with a truncated cone profile at the top. The underside has a slight circular indentation and a trace of pontil in the central glass. There are fine horizontal striations on the outside of the bowl; none other than the shape of the glass.
