The glass is complete. It is in two parts: the bowl formed with the stem, and the foot. The bowl is conical, with a tapered wall at the bottom and a slightly flared rim at the top. The stem is solid, cylindrical and straight. The foot is circular. It has a conical profile and an oblique perimeter. The center of the underside of the foot shows a trace left by the glass pontil, a tool used by the glassmaker to make the glass ; None, other than the shape of the object and the transparency of the glass.
