The bottle is complete, except for a small chip on the base. It is rectangular in shape, with chamfered corners. In cross-section, the bottle has a straight wall, a rounded shoulder and a cylindrical neck topped by a neck made of a small swollen ring and a high, flat-topped conical ring. The base is straight and the bottom is slightly sunken. There's a vertical mold line on two opposite corners, running from the shoulder and neck to the neck and base ; None, except for the shape of the container.
