The decanter is complete. It is cylindrical in shape. In cross-section, the wall is tapered at the sock, the shoulder is rounded and the neck is tapered at the top. The rim has an annular lip that slopes slightly inwards. The inner wall of the neck is frosted. The base has a wide fulcrum; the base is slightly recessed and the center is sunk into a slightly off-center dome. There are wear marks on the base; the decoration is applied. It consists of three superimposed domed rings added to the neck.

Accession Number 2018.10.889

Date 1800 c

Materials British lead-colorless glass

Measurements 18,6 x 8,5 cm
