The plate is complete. It is circular in shape, with an undulating rim. The rim slopes slightly inwards, with a low wall that curves towards the flat base. On the reverse, the plate rests on a flat base. There are three pernette marks arranged in a triangle under the base. Under the base, the plate is debossed: D.G.CARPENTIER 96, and hand-engraved: NOT FOR FOOD;

the decoration is molded and imprinted. The molded decoration is visible on the edge of the marli. It consists of a row of alternating groups of small curved stems with rounded heads, followed by a longer one (Feather edged). The green-colored glaze covering the object gives it a decorative appearance.

Accession Number 2018.10.553

Fabricant / Éditeur Donald G. Carpenter (1951-2014)

Date 1996

Materials ceramics, fine cream-colored terracotta

Measurements 1 x 19,8135 cm
