Collections / From federalism to the end of the Second World War / gin bottle

CC BY-NC-ND 4.0 license

The bottle is complete. It is square with chamfered corners. The sides are tapered at the sock, with a rounded top; the shoulder is rounded, and the neck is short and tapered at the top. The neck is short and tapered upwards, topped by a high, tapered lip with a flat but uneven top. There is a glass burr under the neck. There are small twisted vertical grooves on the neck.

There are two vertical mold lines on opposite corners, from the base; at the top of the wall, the mold lines become central and they continue down the center of the shoulder, on two of the opposite sides, to under the neck. There is a small horizontal projection on all four corners, near the top of the wall. The bottom is recessed and rounded, with two parallel linear bulges on one section. The bottom is recessed and flat; it features a small convex bulge on three of the other corners and an off-center square indentation with a small ring near one corner ; The decoration is molded: the walls and corners feature fine parallel vertical striations.

Accession Number 2018.10.439

Date 1885 c

Materials dark green colored glass

Measurements 24,2 x 7,6 x 7,6 cm
