The bottle is complete, except for a chip on the neck. The front and sides are flat, while the back is domed. In cross-section, it has a straight wall, a rounded shoulder and a straight neck, topped by a neck made of a swollen lip with an almost flat, slightly inward-sloping top (Prescription lip). The base is straight, the fulcrum slightly recessed and domed, the bottom recessed and flat. There are two vertical mold lines on the wall, from the base to the base of the neck. The face features relief-molded inscriptions in three horizontal registers: 117 RUE ST. JEAN J. E. Turcot . QUEBEC. There is a molded mark below the base: 838A. ; None, other than the shape of the object.
