Collections / From the origins to the end of the French Regime / ointment jar

CC BY-NC-ND 4.0 license

The pot is complete; the rim has lost its glaze. It is cylindrical with a plain rim. In cross-section, the wall is straight and the rim flares outwards. It rests on a high, strangled base. The bottom is flat and unglazed. It features small, concentric, off-center incised rings. The body is beige in color and covered with white enamel ; None, except for the whiteness of the enamel.
