The container is complete; there is an annular crack on the bottom. The container is circular. Its wall is flared towards the rim, which is turned downwards. The wall curves towards the bottom, which is flat; it rests on an annular foot, the fulcrum of which is free of enamel and is pierced by two aligned suspension holes, the inner wall of which is covered with

enamel. There are three traces of pernette arranged in a triangle under the rim. There are traces of wear and linear marks on the inner base; the decoration is hand-painted in cobalt blue underglaze. It is vegetal and geometric. The decoration is on the inner wall and bottom. Beneath the rim, it consists of a row of recumbent stems terminating on either side in paired or triplet scrolls. The background is decorated with fan-shaped plant stems topped with three flowers, outlined in dark blue and painted blue.
