The saucer is complete; a break in the rim has been repaired with glue. It is circular in shape. The wall is flared at the top, the rim is slightly flared, and the top of the rim is plain. The wall curves at the base towards the sock, which is slightly domed. It rests on a ring-shaped foot. The underside of the base is recessed and flat; the decoration is applied by transfer printing; the

color is blue. It is floral. The decoration under the inner rim consists of a ribbon decorated with a latticework whose crosses are trimmed with four internal spikes and overlap in places. The decoration on the bottom, which extends slightly over the wall, consists of three identical leafy and flowering stems arranged in a triangle, and a central medallion. The medallion is a chain of circles crossed by a thin ring, from which trifoliate motifs emerge towards the outside; it is adorned in the center with a leafy stem with tendrils. The decoration is slightly blurred. The cut below the rim is visible.
